

Directions for Students (Re)Joining EduGuide

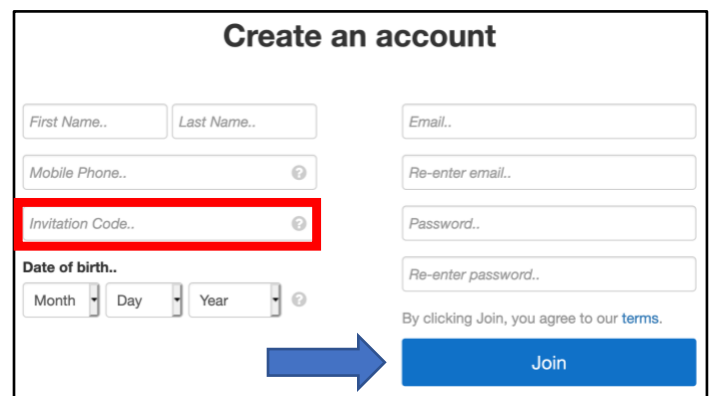

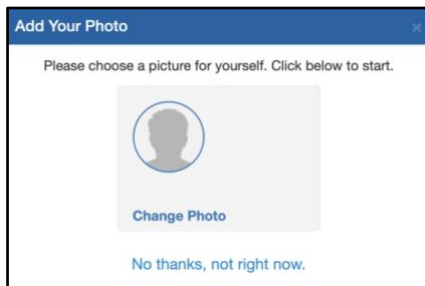

Your teacher will give you a link to join EduGuide. When you click the link, you will be asked whether you already have an EduGuide account.

- If you do not have an account, select the orange button labeled, “No, Join”.
- If you are returning to EduGuide and already have an account, click ‘Yes, Login’ to rejoin the team with a new set of activities.

* Your teacher might also give you a 7-digit code. Go to: eduguide.org/join/ and enter the 7-digit code as the ‘Invitation Code’ when creating your account.

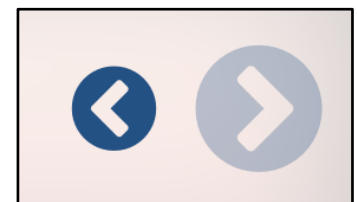

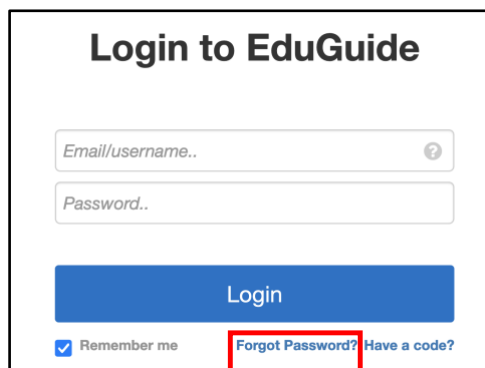

If you are joining EduGuide for the first time, you will be required to create an account on EduGuide. If you had a link, the box circled in red below will have a number already in it – do not change it. If your teacher gave you a code, put it here. Once you’ve completed all fields, click the blue “Join” button.

The first time you join EduGuide will be asked to upload a profile image. This can be changed under ‘My Settings’ in the menu. A profile image is **NOT** required, so you can simply click “No thanks, not right now” to continue without adding a photo.

You will then click the blue arrow in the upper right corner to begin working in your path. ***Note, the blue arrows will be seen throughout your work on EduGuide. You will use the arrows to move forward/backward in your path.**

Complete the first student activity, Your Path to Growth.

Or if you are returning get started back up where you left off. When you see the ‘Adventure Completed’, this signals the end of an activity.

For every visit after this, where your teacher asks you to work on EduGuide, you will visit www.eduguide.org/login.

You will enter your email address and password.

If you’ve forgotten your password, use the “Forgot Password?” link as shown to the left.
